Comprehensive Storage System	55-65
Special Products	66-68
General Information	69-70
Index of Product Numbers	71-73

All orders and inquiries should be directed to
Herman Miller, Inc., Zeeland, Michigan

Herman Miller, Inc. pioneered the introduction of modern furniture to the United States in 1931. The Company's three designers, George Nelson, Charles Eames, and Alexander Girard, are among a handful of men who have influenced the design of business and residential interiors throughout the Western world. Some of Herman Miller's innovations in furniture design since 1931 have been: the L-shaped desk, the storage headboard, molded plywood chairs, two modular seating systems, a seating group incorporating a unique method of suspended upholstery.

Though Nelson, Eames and Girard share similar views on design, there is little similarity in their work. Nelson, the architect, writer and social commentator, pursues conceptual approaches to certain problems of living and working. His modular systems of storage and seating are designed to bring new order to office and residential interiors. Eames, the inventor, explores new materials and production techniques in creating pieces which have added knowledge to the field of furniture design and construction. Alexander Girard's original use of materials, form and color in his textile designs completes the Herman Miller Collection.

All three designers are involved in a wide variety of design work. George Nelson and his staff in New York City are active in architecture, industrial and interior design, corporate identity programs, and exhibition design. In 1962 the first of several United States Travel Agency Offices designed by George Nelson opened in Frankfurt, Germany. Nelson has written several books: "Problems of Design," "Living Spaces," "Storage," and "Chairs."

Charles Eames, his wife, Ray, and their group in Los Angeles have produced numerous award-winning films. Some of the films written, directed, and produced by Charles and Ray Eames are: "The Information Machine" and "Introduction to Feedback" for International Business Machines, and "Toccata for Toy Trains," "Communications Primer," "Parade," "Two Baroque Churches," "Blacktop," and "Day of the Dead." Charles Eames has created and produced film sequences for two major network television spectacles ... he also designs toys and exhibitions. In 1962

Mr. Eames produced a filmed introduction to the U. S. Science Exhibit at the Century 21 World's Fair in Seattle.

In addition to his textile designs for Herman Miller, Inc., Architect Alexander Girard is active in the design of residential and commercial interiors, exhibitions, and graphics. In 1954 he was commissioned by the Museum of Modern Art in New York to travel to India and collect textiles and ornamental arts for an exhibition which he designed for the Museum. His recent restaurant, shop, and showroom interiors have been widely acclaimed. His work has been exhibited in the United States, Barcelona, Florence and London.

Great national honor came to Nelson and Eames when they were requested by the United States Government to participate in the American National Exhibition in Moscow in 1959. Nelson was appointed Director of Design for the entire project; Eames designed and produced a seven screen documentary film on life in America for the exhibition.

The Herman Miller Collection provides solutions to many living and working needs in homes, offices, lobbies, restaurants, transportation terminals, schools, dormitories, and hospitals. The Herman Miller Textile Collection includes hundreds of upholstery and drapery fabrics in an extensive selection of patterns and colors. Herman Miller's Technical Center, and its central manufacturing plant are located in Zeeland, Michigan with a second plant in Los Angeles. Herman Miller furniture is also manufactured in Canada, England, France, West Germany, Switzerland, Italy, Australia and Brazil.

Design awards won by Herman Miller, Inc. and its designers include: Certificate of Excellence, American Institute of Graphic Arts, Diploma di Gran Premio, Undicesima Triennale di Milano.

Our designers and the people who make and sell Herman Miller furniture and textiles believe their efforts should result in products of high performance value and that these designs should be so universal in application as to meet the changing needs of the user in almost any environment.

	DSS-6 STACKING SIDE CHAIR — Naugahyde Pad Specify: Naugahyde color (see page 2).	31¾	23⅞	21½	18
	DSS-60 STACKING SIDE CHAIR — Naugahyde Pad Specify: Shell color and Naugahyde color (see page 2).	31¾	23⅞	21½	18
	DSS-7 STACKING SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Fabric (see page 2).	31¾	23⅞	21½	18
	DSS-70 STACKING SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Shell color and fabric (see page 2).	31¾	23⅞	21½	18
	DSS-8 STACKING SIDE CHAIR — Custom Pad Specify: Cover (see page 2)	31¾	23⅞	21½	18
	DSS-80 STACKING SIDE CHAIR — Custom Pad Specify: Shell color and cover (see page 2).	31¾	23⅞	21½	18

The stacking chairs (DSS, etc.) come with side hooks for ganging to form rows of seating. They can be set up in straight rows or in curved rows with an arc of 26 to 27 feet radius. The stacking chairs below (DSS-N, etc.) are without the side hooks. Dollies for stacking chairs can be found on Page 13.

	DSS-N STACKING SIDE CHAIR — Seating height 18" Specify: Shell color (see page 2).	31¾	23⅞	21½	15
	DSS-N-6 STACKING SIDE CHAIR — Naugahyde Pad Specify: Naugahyde color (see page 2).	31¾	23⅞	21½	18
	DSS-N-60 STACKING SIDE CHAIR — Naugahyde Pad Specify: Shell color and Naugahyde color (see page 2).	31¾	23⅞	21½	18
	DSS-N-7 STACKING SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Fabric (see page 2).	31¾	23⅞	21½	18
	DSS-N-70 STACKING SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Shell color and fabric (see page 2).	31¾	23⅞	21½	18
	DSS-N-8 STACKING SIDE CHAIR — Custom Pad Specify: Cover (see page 2)	31¾	23⅞	21½	18
	DSS-N-80 STACKING SIDE CHAIR — Custom Pad Specify: Shell color and cover (see page 2).	31¾	23⅞	21½	18

CHAIRS

The following chair bases are polished natural aluminum with black painted tubes or shafts and spiders. The PSC has a pivot or swivel base without casters. The PSCC has a pivot or swivel base with casters. Both have a seating height of 18½".

ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
PSC	SIDE CHAIR — Seating height 18½" Specify: Shell color (see page 2).	32¼	18½	22	17
PSC-6	SIDE CHAIR — Naugahyde Pad Specify: Naugahyde color (see page 2).	32¼	18½	22	20
PSC-60	SIDE CHAIR — Naugahyde Pad Specify: Shell color and Naugahyde color (see page 2).	32¼	18½	22	20
PSC-7	SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Fabric (see page 2).	32¼	18½	22	20
PSC-70	SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Shell color and fabric (see page 2).	32¼	18½	22	20
PSC-8	SIDE CHAIR — Custom Pad Specify: Cover (see page 2).	32¼	18½	22	20
PSC-80	SIDE CHAIR — Custom Pad Specify: Shell color and cover (see page 2).	32¼	18½	22	20

The PSC is also available with an adjustable base (seating height 16" to 19"). Please specify PSC-A, PSC-A-6, PSC-A-60, etc.

PSCC	SIDE CHAIR — Seating height 18½" Specify: Shell color (see page 2).	32¼	18½	22	17
PSCC-6	SIDE CHAIR — Naugahyde Pad Specify: Naugahyde color (see page 2).	32¼	18½	22	20
PSCC-60	SIDE CHAIR — Naugahyde Pad Specify: Shell color and Naugahyde color (see page 2).	32¼	18½	22	20
PSCC-7	SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Fabric (see page 2).	32¼	18½	22	20
PSCC-70	SIDE CHAIR — Nylomix or Hopsak Fabric Pad Specify: Shell color and fabric (see page 2).	32¼	18½	22	20
PSCC-8	SIDE CHAIR — Custom Pad Specify: Cover (see page 2).	32¼	18½	22	20
PSCC-80	SIDE CHAIR — Custom Pad Specify: Shell color and cover (see page 2).	32¼	18½	22	20

The PSCC is also available with an adjustable base (seating height 16" to 19"). Please specify PSCC-A, PSCC-A-6, PSCC-A-60, etc.

SPACERS — EAMES PLASTIC CHAIRS

The seating angle of Eames Plastic Chairs may be changed by the addition of two ¼ inch thick Black Polyethylene spacers installed between the rear shock mounts and the base, thereby decreasing the pitch of the back for special reading or table-desk uses. (NOTE: The seat-back angle of the DSS stacking chair is presently 13 degrees and any further decrease would be undesirable.) The chairs that are available with straighter back pitch, their designation and seat back angle are as follows:

CHAIRS

The following fiberglas reinforced plastic chairs have secretarial posture pads, using foam rubber for cushioning. Please specify shell color, see page 2.

ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	PSC-3 SIDE CHAIR Seating height 18½". Intermediate seating angle cushions. Black and polished aluminum swivel base. Specify: Shell color — see page 2. Available in fabric or Naugahyde. 1 yard required.	32¼	18½	22	20
	PSC-A-3 SIDE CHAIR Same as PSC-3 with adjustable base. Seating height 16" to 19".	29¾ to 32¾	18½	22	20
	PSC-4 SIDE CHAIR Seating height 18½". Straight seating angle cushions. Black and polished aluminum swivel base. Specify: Shell color — see page 2. Available in fabric or Naugahyde. 1 yard required.	32¼	18½	22	20
	PSC-A-4 SIDE CHAIR Same as PSC-4 with adjustable base. Seating height 16" to 19".	29¾ to 32¾	18½	22	20
	PSCC-3 SIDE CHAIR Seating height 18½". Intermediate seating angle cushions. Black and polished aluminum swivel base with casters. Specify: Shell color — see page 2. Available in fabric or Naugahyde. 1 yard required.	32¼	18½	22	20
	PSCC-A-3 SIDE CHAIR Same as PSCC-3 with adjustable base. Seating height 16" to 19".	29¾ to 32¾	18½	22	20
	PSCC-4 SIDE CHAIR Seating height 18½". Straight seating angle cushions. Black and polished aluminum swivel base with casters. Specify: Shell color — see page 2. Available in fabric or Naugahyde. 1 yard required.	32¼	18½	22	20
	PSCC-A-4 SIDE CHAIR Same as PSCC-4 with adjustable base. Seating height 16" to 19".	29¾ to 32¾	18½	22	20
	DSX-4 SIDE CHAIR Seating height 18". Specify: Shell color — see page 2. Specify base: (ZN) Bright Plated or (BK) Black steel tube. Available in fabric or Naugahyde. 1 yard required.	31½	18½	22	20
	DSX-5 SIDE CHAIR — Seat pad only Seating height 18". Specify: Shell color — see page 2. Specify base: (ZN) Bright Plated or (BK) Black steel tube. Available in fabric or Naugahyde. ½ yard required.	31½	18½	22	20

CHAIRS

The Eames chair group also includes chairs with wire shells available with one piece (-1) and two piece (-2) foam rubber pads upholstered in any Herman Miller fabric and Herman Miller standard Naugahydes shown on page 2.

ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	DKX-1 WIRE CHAIR Seating height 19". Black steel tube legs only. Specify shell: (BK) Black or (WH) White baked-on enamel. Available in fabric or Naugahyde. 1 1/3 yards required.	32 3/8	19	21	23
	MX-1 WIRE CHAIR Seating height 16 7/8". Black steel tube legs only. Specify shell: (BK) Black or (WH) White baked-on enamel. Available in fabric or Naugahyde. 1 1/3 yards required.	28 3/4	19	22	22
	DKR-1 WIRE CHAIR Seating height 18 3/4". Black steel wire legs only. Specify shell: (BK) Black or (WH) White baked-on enamel. Available in fabric or Naugahyde. 1 1/3 yards required. NOTE: DKR-1 for Residential Use Only.	32	19	21	17
	PKC-1 WIRE CHAIR Seating height 18 3/4". Black polished aluminum swivel base. Specify shell: (BK) Black or (WH) White baked-on enamel. Available in fabric or Naugahyde. 1 1/3 yards required.	32 1/4	19	21	20
	PKC-A-1 WIRE CHAIR Same as PKC-1 with adjustable base. Seating height 16" to 19".	29 3/4 to 32 3/4	19	21	20
	PKCC-1 WIRE CHAIR Seating height 18 3/4". Black and polished aluminum swivel base with casters. Specify shell: (BK) Black or (WH) White baked-on enamel. Available in fabric or Naugahyde. 1 1/3 yards required.	32 1/4	19	21	20
	PKCC-A-1 WIRE CHAIR Same as PKCC-1 with adjustable base. Seating height 16" to 19".	29 3/4 to 32 3/4	19	21	20
	LKR-1 WIRE CHAIR Seating height 13 1/2". Black steel wire legs only. Specify shell: (BK) Black or (WH) White baked-on enamel. Available in fabric or Naugahyde. 1 1/3 yards required. NOTE: LKR-1 for Residential Use Only.	26	19	21 3/4	17

	I-DSG	SIDE CHAIR With wall saver base — Seating height 18". Specify shell color: See Above. Specify base: (ZN) Bright Plated or (BK) Black steel tube.	31 $\frac{1}{4}$	18 $\frac{1}{2}$	23 $\frac{1}{2}$	15

CHAIRS

The DSS stacking chairs are available with special adapters welded to the right hand side of the chair base, as seated. Tablet arms or arm rests with supports slide into the adapters. The normal ganging and stacking features of the DSS are retained with arms removed. Legs and adapters are bright plated steel tube only, arm supports are bright plated steel rod. Tablet arms and armrests are available in (WH) White or (GY) Grey laminated plastic. Chairs are shipped assembled, arms not attached.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	0715	STACKING SIDE CHAIR With Tablet Arm. Seating height 18". Specify shell color (see page 2). Specify Tablet Arm: (WH) White or (GY) Grey laminated plastic.	31 $\frac{3}{4}$	23 $\frac{1}{8}$	21 $\frac{1}{2}$	19
	0716	STACKING SIDE CHAIR With Arm Rest. Seating height 18". Specify shell color (see page 2). Specify Arm Rest: (WH) White or (GY) Grey laminated plastic.	31 $\frac{3}{4}$	23 $\frac{1}{8}$	21 $\frac{1}{2}$	17
	0717	STACKING SIDE CHAIR With Adapters Only. Seating height 18". Specify shell color (see page 2).	31 $\frac{3}{4}$	23 $\frac{1}{8}$	21 $\frac{1}{2}$	15

The "A" and "B" Dollies accommodate vertical stacks of DSS stacking chairs, combining a simple means of transportation with a minimum amount of storage space. The "A" Dolly carries one stack of 15 chairs, the "B" Dolly two stacks of 15 chairs. Top surface is beige color with black butyrate edge. Equipped with two fixed and two swiveling casters.

	A	DOLLY	4 $\frac{3}{8}$	24	24	16
	B	DOLLY	4 $\frac{3}{8}$	48	24	26

The Charles Eames chair group also includes Molded Plywood chairs available in (W) Walnut, (AH) Ash, (BK) Black and (OR) Oil Rosewood. Please specify. The legs and frame are polished chrome steel, with self leveling nylon glides. The DCM and the LCM are shipped assembled.

	DCM	MOLDED PLYWOOD CHAIR Seating height 18". Polished chrome steel legs and frame. Specify Finish: (W) Walnut, (AH) Ash, (BK) Black or (OR) Oil Rosewood.	29 $\frac{1}{4}$	19 $\frac{1}{2}$	21 $\frac{1}{2}$	20
	LCM	MOLDED PLYWOOD CHAIR Seating height 15 $\frac{1}{4}$ ". Polished chrome steel legs and frame. Specify Finish: (W) Walnut, (AH) Ash, (BK) Black or (OR) Oil Rosewood.	27 $\frac{3}{8}$	22 $\frac{1}{4}$	25 $\frac{3}{8}$	20

CHAIRS

The 1700 Series chairs are upholstered in selected Herman Miller fabrics and Naugahyde with dark vinyl edge band on pad. 1700-1 and 1730-1 bases are available in grey epoxy fluid bed coated, white vinyl fluid bed coated or polished aluminum. Swivel base is black and polished aluminum. Shells are light greige fiberglass reinforced plastic. Upholstery materials are: Herman Miller Nylopoint, Millerwool, Superwool, Nylomix, Hopsak and Premier Naugahyde. Chairs are shipped assembled.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	1700-1	SIDE CHAIR Seating height 18½". Available in selected fabric and Naugahyde. See above. Specify base: (GY) Grey epoxy, (WH) White vinyl or (L) Polished aluminum.	29	18¾	20	19
	1730-1	ARM CHAIR Seating height 18½". Available in selected fabric and Naugahyde. See above. Specify base: (GY) Grey epoxy, (WH) White vinyl or (L) Polished aluminum.	29½	25	22	23
	1705-1	SIDE CHAIR WITH SWIVEL BASE Seating height 18½". Available in selected fabric and Naugahyde. See above. Base is black and polished aluminum.	29	18¾	20	20
	1705-A-1	SIDE CHAIR WITH ADJUSTABLE SWIVEL BASE Same as 1705-1 except with adjustable base. Seating height 16" to 19".	26½ to 29½	18¾	20	20
	1706-1	SIDE CHAIR WITH SWIVEL BASE Same as 1705-1 plus casters.	29	18¾	20	20
	1706-A-1	SIDE CHAIR WITH ADJUSTABLE SWIVEL BASE Same as 1705-A-1 plus casters.	26½ to 29½	18¾	20	20
	1735-1	ARM CHAIR WITH SWIVEL BASE Seating height 18½". Available in selected fabric and Naugahyde. See above. Base is black and polished aluminum.	29½	25	22	24
	1735-A-1	ARM CHAIR WITH ADJUSTABLE SWIVEL BASE Same as 1735-1 except with adjustable base. Seating height 16" to 19".	27 to 30	25	22	24

EAMES TANDEM SEATING SYSTEM

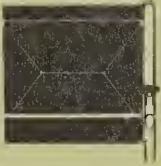

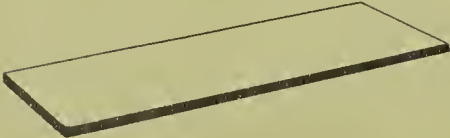

Eames Tandem Seating was designed primarily for use in public places. It is comfortable, handsome, ample and practical. It can be of help in organizing a space and giving it definition.

Eames Tandem Seating is available in single rows of two to ten seats per row, and in double rows (back-to-back) of ten to twenty seats per unit. The back-to-back solution supports large groups of seats above the floor with minimum contact, automatically forming neat rows.

The seat and back pads, identical and interchangeable, are a heat sealed sandwich of black Naugahyde, vinyl foam and Fibrethin and are held between polished aluminum castings. These are secured to a continuous steel T-beam strong enough to permit large clear spans, affording unusual ease of maintenance. In the event of vandalism, pads and arms can be replaced on location.

Listed below are descriptions and component numbers for ordering purposes. List the last digit of each component from left to right for assembly instructions. See next page for examples of available combinations. When back-to-back combinations are desired please indicate.

EXECUTIVE OFFICE GROUP — 9000 SERIES

The 9000 EOG Series is a limited collection of desks in oil teak with ebonized hardwood frames. Three pedestal variations are available. Four drawer pedestal includes a locked compartment and an adjustable card index divider in the third drawer. File pedestal contains legal size Pendaflex folders. Dictaphone pedestal includes two drawers in addition to a compartment with electrical outlet for dictaphone. Each desk includes one adjustable divider in one of the top drawers. In addition, there is a pencil tray, a drawer with a partition and a pull-out slide with glass top in the ebonized apron between pedestals and the desk top. "N-C" Pull Only. (See Page 69).

EXECUTIVE OFFICE GROUP — 8000 SERIES

The 8000 series Executive Office Group desks and storage units combine to make a variety of "L" units, double and single pedestal desks. Some storage units are specifically for "L" desk arrangements (8001, 8010, 8003, 8030, 8004, 8040, 8008, 8080) and other units may be used free standing or in "L" desk arrangements (5803, 5803M, 5804, 5804M, 5800, 5800G, 5805, 5805M). A pull and L-1 legs only; see page 69. A matching series of conference tables (8599, 8699, 8799, 8999) is also available; see page 25.

How to plan an EOG desk arrangement. 8000 Series EOG desks are identified by four digits. Each digit tells two things about the desk. 1. What parts make up the desk. 2. Where each part is located. There is one enlarged digit in each attachable component's product identification number. This enlarged number is used in the formula to identify the location of the desired component in the four digit identification of the desk. Following a sequence formula of "8-top — left — right," the first digit "8" identifies the 8000 Series EOG, the second digit tells what size top is to be used, the third digit tells what component is located on the left when seated at the desk, the fourth digit tells what component is located on the right when seated at the desk.

When a free standing storage shell is to be attached to the desk, its entire number follows the four digit desk identification number and the spacer block (5808, 5880) identification digit 8 is used as the third or fourth digit.

COMPONENTS AVAILABLE AND EXAMPLES OF DESK ARRANGEMENTS USING THE FOUR DIGIT FORMULA.

FIRST DIGIT

8 8000
SERIES
EOG

SECOND DIGIT

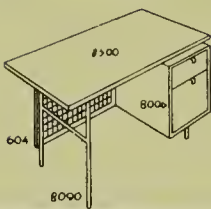

5—54 x 30 Top
6—66 x 30 Top
7—72 x 30 Top
8—84 x 36 Top
9—60 x 30 Top

THIRD DIGIT

1—Small Secretarial Unit
3—Large Secretarial Unit
4—Executive Storage
5—3 Drawer Pedestal
6—File Pedestal
7—Stationery Pedestal
8—Spacer Block
9—H-Leg

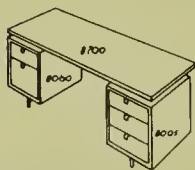

FOURTH DIGIT

1—Small Secretarial Unit
3—Large Secretarial Unit
4—Executive Storage
5—3 Drawer Pedestal
6—File Pedestal

	8800	EOG TOP Specify: Top and Edge. See below.	1¼	84	36	170

All tops including laminated plastic have Walnut or Teak edgeband to match desk. All tops are available in (W) Walnut, (OW) Oil Walnut, (OT) Oil Teak and laminated plastic as follows: (M-1) White, (M-2) Light Grey, and (M-4) Walnut. Note: Knee space requirements are such that the 54" top is available only with H-Leg and storage unit or single pedestal desk. Overhang dimensions are as follows: 54", 60", 66" and 72" x 30" desk tops overhang 5" at front; 84" x 36" desk tops overhang 11" at front; 84" x 36" desk tops on single pedestal desk overhang 12" on pedestal side; 84" x 36" desk top on double pedestal desk overhangs 6" on both sides; 84" x 36" desk top on 'L' unit desk overhangs 12" on pedestal side.

	8005	RHF THREE DRAWER PEDESTAL	28¼	18½	25	85
	8050	LHF THREE DRAWER PEDESTAL Top drawer has a molded pencil tray, adjustable dividers. Central locking for all three drawers. L-shaped spacer block for attaching to desk top is included. Specify: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak.				
	8006	RHF FILE PEDESTAL	28¼	18½	25	85
	8060	LHF FILE PEDESTAL Two drawers. Top drawer has a molded pencil tray. File drawer on extension slides accommodates letter or legal size Pendaflex folders. Central locking for both drawers. L-shaped spacer block for attaching to desk top is included. Specify: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak.				
	8007	RHF STATIONERY STORAGE PEDESTAL	28¼	18½	25	75
	8070	LHF STATIONERY STORAGE PEDESTAL Two drawers. Top drawer has a molded pencil tray. Compartmented stationery drawer below. Central locking for both drawers. L-shaped spacer bar for attaching to desk top is included. Specify: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak.				

EXECUTIVE OFFICE GROUP — 8000 SERIES

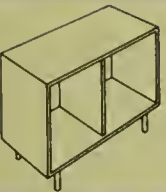

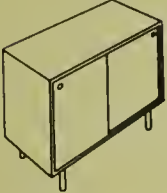

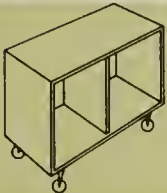

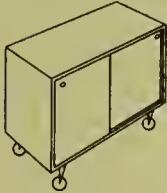

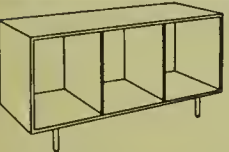

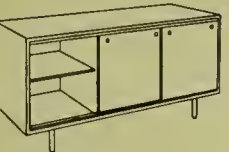

The following series of storage units are specifically designed as component parts of "L" unit desks and are not intended as free standing units. Shells including finished backs are available in (W) Walnut, (OW) Oil Walnut and (OT) Oil Teak. Tops are available in (W) Walnut, (OW) Oil Walnut, (OT) Oil Teak or (M1) White, (M2) Grey or (M4) Walnut laminated plastic. Sliding doors (8004 or 8040) are lacquer finish in (GM) Gunmetal, (WH) White, (TR) Tangerine or (MR) Mustard.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	8001	RHF SMALL SECRETARIAL UNIT	25½	69	18½	240
	8010	LHF SMALL SECRETARIAL UNIT Two drawers, molded pencil tray, adjustable shelf in knee-hole section. Stationery divider in large drawer. Storage space (with lock) accessible from front of desk. Includes spacer block. Specify top and shell — see above. Extends 44" from edge of desk top.				
	8003	RHF LARGE SECRETARIAL UNIT	25½	80	18½	295
	8030	LHF LARGE SECRETARIAL UNIT Same as 8001-8010 with addition of one hinged door compartment with one adjustable shelf. Includes spacer block. Specify top and shell — see above. Extends 55" from edge of desk top.				
	8004	RHF EXECUTIVE STORAGE SHELL	25½	80	18½	250
	8040	LHF EXECUTIVE STORAGE SHELL Standard Equipment: Two locks, concealed wastebasket, sliding doors, large storage compartment accessible from front of desk. Includes spacer block. Specify top, shell and sliding doors (front) — see above. Specify 3 interior components, starting from desk top — see bottom of next page. Extends 55" from edge of desk top.				

The following group of storage units complete "L" unit desks (except 5804C and 5804CM mobile units) or may be used as free standing units. Shells, including finished backs, are available in (W) Walnut, (OW) Oil Walnut and (OT) Oil Teak. Tops are available in (W) Walnut, (OW) Oil Walnut, (OT) Oil Teak, or (M1) White, (M2) Grey or (M4) Walnut laminated plastic. Sliding doors are lacquer finish in (GM) Gunmetal, (WH) White, (TR) Tangerine or (MR) Mustard.

	5808	RHF SPACER BLOCK				
	5880	LHF SPACER BLOCK For use when free standing storage units are to be part of "L" desk assembly. Specify: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak.				
	5803	LARGE STORAGE SHELL Specify top and shell — see above Specify 4 interior components, from left to right, facing the unit — see bottom of next page.	25½	70	18½	230
	5803M	LARGE STORAGE SHELL Same as 5803 plus sliding doors. Specify top, shell and sliding doors (front) — see above. Specify 4 interior components, from left to right, facing the unit — see bottom of next page.	25½	70	18½	230
	5803M-L	LARGE STORAGE SHELL Same as 5803M with lock.				

EXECUTIVE OFFICE GROUP — 8000 SERIES

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	5804	SMALL STORAGE SHELL Specify top and shell — see previous page. Specify 2 interior components, left to right — see below.	25½	35½	18½	130
	5804M	SMALL STORAGE SHELL Same as 5804 plus sliding doors. Specify top, shell and sliding doors (front) — see previous page. Specify 2 interior components, left to right — see below.	25½	35½	18½	130
	5804M-L	SMALL STORAGE SHELL Same as 5804M with lock.				
	5804C	SMALL STORAGE SHELL Same as 5804 plus casters. Specify top and shell — see previous page. Specify 2 interior components, left to right — see below.	25½	35½	18½	130
	5804MC	SMALL STORAGE SHELL Same as 5804C plus sliding doors. Specify top, shell and sliding doors (front) — see previous page. Specify 2 interior components, left to right — see below.	25½	35½	18½	130
	5804MC-L	SMALL STORAGE SHELL Same as 5804MC with lock.				
	5805	INTERMEDIATE STORAGE SHELL Specify top and shell — see previous page. Specify 3 interior components, left to right — see below.	25½	52¾	18½	200
	5805M	INTERMEDIATE STORAGE SHELL Same as 5805 plus 3 sliding doors. Specify top, shell and sliding doors (front) — see previous page. Specify 3 interior components, left to right — see below.	25½	52¾	18½	200
	5805M-L	INTERMEDIATE STORAGE SHELL Same as 5805M with lock.				

INTERIOR COMPONENTS

Four digit numbers do not completely identify certain units because of their broad interior flexibility. These units are: 8004-8040 Executive Storage Shell, 5803-5803M, 5804-5804M, 5804C-5804MC and 5805-5805M Storage Shells.

All of these units require the selection of interior components. There are four such components.

	IC-A	ADJUSTABLE SHELF WITH SHELF SUPPORTS Specify: (OW) Oil Walnut or (OT) Oil Teak.		IC-C	UTILITY TRAY AND LEGAL FILE DRAWER ON FULL EXTENSION WITH PENDAFLEX FOLDERS Specify: (OW) Oil Walnut or (OT) Oil Teak.
	IC-B	THREE DEEP TRAYS ON WOOD SLIDES. Specify: (OW) Oil Walnut or (OT) Oil Teak.		IC-D	DICTAPHONE SLIDE ON METAL EXTENSION SLIDES. Specify: (OW) Oil Walnut or (OT) Oil Teak.

8004-8040 Storage Shells require three of these components in any combination desired. When ordering, start with the section nearest the edge of the desk top (to which the 8004-8040 is attached) and work away from the desk. 5803-5803M Storage units require four of these components, 5805-5805M require three, and 5804-5804M, 5804C and 5804MC require two. When ordering components for free standing units, list the components from left to right as you face the unit.

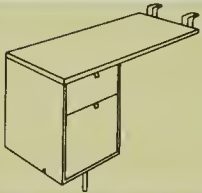

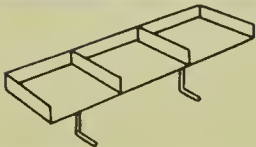

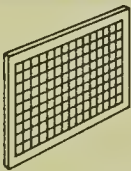

Interior components are permanently installed at the factory. All hardware is furnished and installed. When dictaphone slides are installed, outlets are provided in the bottom of the case for electrical wiring.

EXECUTIVE OFFICE GROUP — 8000 SERIES

The 5800 group of bookcases is not available with laminated plastic tops or finished backs. This group is intended for use as free standing units against walls. When finished back is desired, the 5803 or 5803M may be used as a bookcase by adding shelves (IC-A component).

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	5800	BOOKCASE With 5 adjustable shelves, black back. Specify: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak.	25½	70	18½	220
	5800G	BOOKCASE Same as 5800 plus sliding glass doors. Specify: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak.	25½	70	18½	260
	5800M	BOOKCASE Same as 5800 plus sliding doors. Specify shell: (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak. Specify sliding doors (front): (GM) Gunmetal, (WH) White, (TR) Tangerine or (MR) Mustard.	25½	70	18½	220
	5800M-L	BOOKCASE Same as 5800M with lock.				

ACCESSORIES TO COMPLETE DESK ASSEMBLIES.

	8008	RHF ATTACHED TYPING UNIT	24¾	42	18½	130
	8080	LHF ATTACHED TYPING UNIT Specify shell and top — see below.				
	8009	RHF H LEG	28¾	21	9	10
	8090	LHF H LEG Satin finish chrome plate steel tube				
	602	OVER-DESK LETTER TRAY For attaching to front of desk top. Brackets: Satin finish chrome plate steel tube. Specify: (W) Walnut, (OW) Oil Walnut, or (OT) Oil Teak.	9	39	10½	40
	604	SCREEN Natural cane tightly woven. Size need not be specified when ordered with desk. When ordered separately, specify size. Specify: (W) Walnut, (OW) Oil Walnut, or (OT) Oil Teak.	20	23	1⅞	12
			20	29	1⅞	
			20	35	1⅞	
			20	39	1⅞	
			20	51	1⅞	
	605	DESK LAMP Brushed Aluminum Base. Opaque White Plastic Fabric Shade.	16	18" dia.		25
	9060	TYPEWRITER TABLE With front and side panels. Specify shell and top — see below.	25¼	29	18½	75

The 8008-8080 attached typing units have top drawer with molded pencil and utility tray. Large drawer has six compartment stationery dividers. Satin aluminum brackets for attaching to tops to make "L" arrangement of single pedestal desk. 8008-8080 and 9060 available in (W) Walnut, (OW) Oil Walnut or (OT) Oil Teak shells, and (W), (OW), (OT) or (M1) White, (M2) Grey or (M4) Walnut laminated plastic Tops. "A" pulls and L-1 legs only on Executive Office Group — 8000 Series (see page 69).

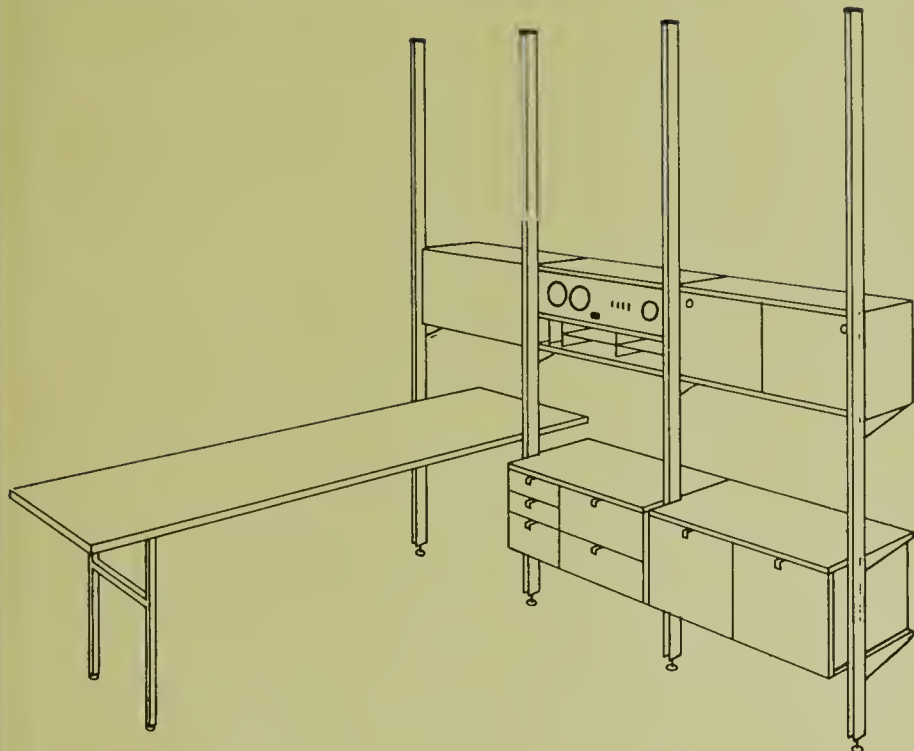

COMPREHENSIVE STORAGE SYSTEM

The Comprehensive Storage System designed by George Nelson introduces a new approach to storage problems. Furniture in the usual sense is replaced by a system of structural supports which can carry any desired arrangement of shelves, drawers, sliding panels and other components. Every installation can be planned to solve individual requirements and no two CSS walls need ever be alike.

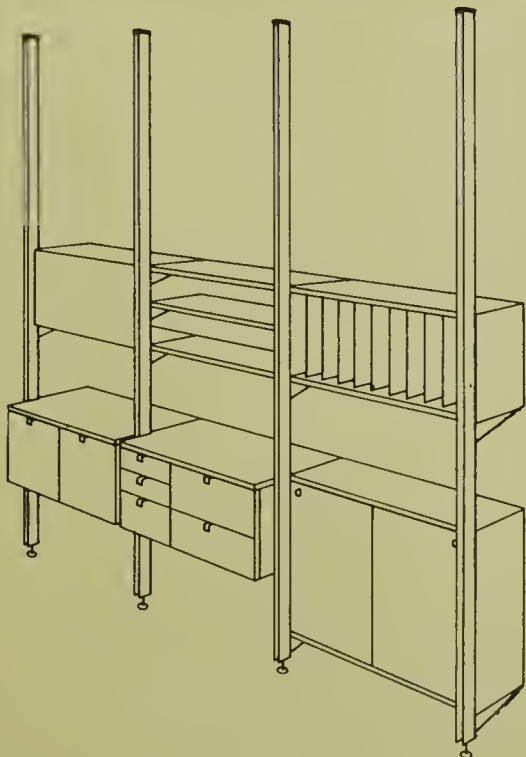

To simplify ordering CSS, several typical assemblies have been selected. They are illustrated below and on the next page. These packages can be purchased as shown or can be easily modified to fit individual requirements. All packages are based on the 9101 pole. Other components can be added to or subtracted from the basic package. For heavy-duty installations replace 9101 poles with 9101-H poles or add 0317 pole stabilizers for wall installations.

Finish information, top selection, etc. must be specified. Please refer to item listing before ordering package assembly.

All standard pulls, page 69, are available. Please specify. If not specified A pull will be used (except stacking drawers — R pull is standard).

COMPREHENSIVE STORAGE SYSTEM

Panel and shelf components are usually used with pieces from the storage component group. They represent a simple method of extending the use and versatility of CSS. The wood flipper and the grill cloth flipper doors come with hinges for attachment to the poles. NOTE: 2659 and 3620 not to be used with sliding doors, center panels, clothes hangers or shelf light.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	0118	WOOD FLIPPER DOOR Specify: (OW) Oil Walnut, (OT) Oil Teak, (GM) Gunmetal, (MR) Mustard or (TR) Tangerine Lacquer.	14 $\frac{13}{16}$	30 $\frac{7}{8}$	$\frac{7}{8}$	5
	0119	GRILL CLOTH FLIPPER DOOR Natural Heather Grey Goatspun Cloth over a wood frame.	14 $\frac{13}{16}$	30 $\frac{7}{8}$	$\frac{7}{8}$	7
	0120	SHELF Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	1 $\frac{3}{16}$	32	12	7
	2120	SHELF Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	1 $\frac{3}{16}$	48	12	9
	0309	SHELF Specify: Exact width desired (22" to 25 $\frac{1}{2}$ "). Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	1 $\frac{3}{16}$		12	7
	0310	SHELF Specify: Exact width desired (26" to 31 $\frac{1}{2}$ "). Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	1 $\frac{3}{16}$		12	7
	0160	SHELF Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	1 $\frac{3}{16}$	32	18 $\frac{1}{2}$	7
	0312	SHELF WITH DRAWERS Includes two sliding trays on underside. For use as a writing or dressing table. Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	2 $\frac{1}{4}$	32	18 $\frac{1}{2}$	20
	1620	MAGAZINE SHELF To be installed at a 45° angle. Front edge has a one inch retaining ledge. Specify: (OW) Oil Walnut, (OT) Oil Teak or (M1) White laminated plastic with (OW) or (OT) edges.	1 $\frac{3}{16}$	32	15 $\frac{3}{8}$	7
	2659	GLASS SHELF Frame: Anodized natural aluminum and white lacquered hardwood. Glass panels are removable. Specify: (WH) Opal or (GL) Clear glass.	$\frac{3}{4}$	32	12	10
	3620	METAL SHELF One piece 18 gauge sheet including the brackets. Specify finish: (CR) Charcoal, (WH) White, (GY) Grey, (PT) Platinum, (BG) Beige or (BN) Brown enamel.	$\frac{7}{8}$	32	12	10

COMPREHENSIVE STORAGE SYSTEM

Switch panels may be used in CSS installations for home or office. Clocks, switches, speakers, etc. may be custom installed by owner using the 0121. No. 0321 has a barometer, electric clock, grille cloth covered speaker opening, four push button switches and one energized electrical outlet. Lift lid top facilitates servicing and installation. Face plate on both is satin finish aluminum. Allow 12" between lid and adjacent components.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	0121	SWITCH PANEL Unfitted. Specify: (OW) Oil Walnut or (OT) Oil Teak.	7 $\frac{7}{8}$	32	12	15
	0321	SWITCH PANEL Fitted (see above) Specify: (OW) Oil Walnut or (OT) Oil Teak.	7 $\frac{7}{8}$	32	12	28

Sliding door units are installed between two shelves and come in four sizes (two sizes for 32" CSS and two sizes for 48"). Sliding door assembly includes upper and lower track of natural aluminum, and two doors. To complete enclosure, order shelves, back and end panels separately.

	0127	SLIDING DOORS Specify: (GL) Glass, (OW) Oil Walnut, (OT) Oil Teak, (GM) Gunmetal, (MR) Mustard or (TR) Tangerine Lacquer.	14 $\frac{13}{16}$	31	$\frac{7}{8}$	7

End, back and center panels are used to divide or enclose storage spaces between shelves and components. End panels are held in place by two hook-on brackets. Back panels are secured by screws into back of components. Center panels are designed to fit between top and bottom shelves of a compartment. A small aluminum channel is fastened to the bottom shelf with screws; the panel fits into the channel. The top is secured to the bracket of the upper shelf with screw and nut. The center panels can also be used as end panels instead of 0139.

COMPREHENSIVE STORAGE SYSTEM

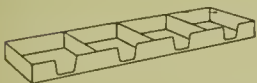

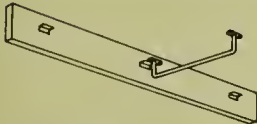

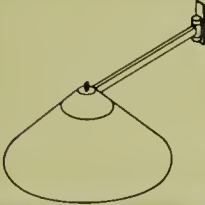

The CSS Conference Wall may be used for work and storage in conference rooms, offices, and lecture rooms. The following components may be especially planned or the conference wall package unit may be selected, see Page 56. The 9130 Valance has 8' fluorescent light, accommodates roll-up maps, screens, etc. Interior dimensions are: Height 4½", Width 96". Depth clear of fluorescent light and switch, 8". The unit spans four poles on 32" centers.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	9130	VALANCE Top is white lacquer, sides natural aluminum. Specify front: (OW) Oil Walnut or (OT) Oil Teak.		97	12	60
	9131	CHART RAIL, 97½" Used as base supporting charts, or for chalk, pencils, etc. Spans four poles on 32" centers. Specify: (OW) Oil Walnut or (OT) Oil Teak.	2	97½	4½	10
	0307	CHART RAIL, 65½" Spans three poles on 32" centers. Specify: (OW) Oil Walnut or (OT) Oil Teak.	2	65½	4½	8
	9132	CHALKBOARD Green both sides, reversible. Natural Aluminum Edge.	32½	32½	½	21
	9133	SLIDING PANEL Goatspun Grille Cloth, Natural Aluminum Edge.	32½	32½	½	10
	0323	TACKBOARD Natural Cork both sides, reversible. Natural Aluminum edge.	32½	32½	½	21

NOTE: 9132, 9133 and 0323 are used with 9134 and 0308 sliding tracks. Over-all height including track is 33". Other 12" deep components may be used behind these sliding panels.

	9134	SLIDING TRACKS, 98" Double channels of anodized aluminum.	1	98	1⅜	8
	0308	SLIDING TRACKS, 65" Double channels of anodized aluminum.	1	65	1⅜	7

COMPREHENSIVE STORAGE SYSTEM

ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH	SHIP. WT.
	9124 LETTER TRAY For use on shelves or components (32"), unattached. Specify: (OW) Oil Walnut or (OT) Oil Teak.	3	32	12	10
	2124 LETTER TRAY For use on shelves or components (48"), unattached. Specify: (OW) Oil Walnut or (OT) Oil Teak.	3	48	12	14
	0306 UTILITY TRAY A four compartment tray for use in upper left drawer of the 0116, 0117 and 2116 drawer units. Black Royalite.	1 $\frac{1}{4}$	10 $\frac{5}{8}$	9 $\frac{1}{8}$	1
	9136 CLOTHES HANGER Attaches to underside of 0120 or 2120 shelf. Specify: (OW) Oil Walnut or (OT) Oil Teak.	3 $\frac{1}{2}$	31	$\frac{5}{8}$	4
	9137 LAMP Cone shaped plastic shade. Specify color: (WH) off-white or (LY) yellow. Satin finish chrome arm. Mounts on front edge of pole at any height. 8 foot cord runs in pole channel.	7 $\frac{1}{4}$	11 $\frac{3}{4}$ " dia.		8
	1638 LAMP — TWO WAY LIGHT Cylindrical, black enamel aluminum shade, and satin chrome arm. 8 foot cord. Mounts on front edge of pole at any height. Cord runs in pole channel. Three-way switch for upper or lower light or both.	12 $\frac{1}{8}$	3 $\frac{1}{2}$ " dia.	7 $\frac{1}{8}$	7

The 0315 Vanity Mirror has three hinged sections. Back of mirror upholstered in any Herman Miller fabric, please specify. Shelf is (OW) Oil Walnut, (OT) Oil Teak, or (M1) White laminated plastic, with (OW) or (OT) edge. Supports are black enamel, frames satin chrome steel.

	0315 VANITY MIRROR Includes shelf. Specify: Fabric for back of mirror. Specify: Finish of shelf (see above).	17 $\frac{3}{4}$	32	12	25
	0316 VANITY LIGHT For use with 0315 mirror. Two strips of four light bulbs installed in the rear channels of the two poles. Off-On switch included.	23 $\frac{1}{2}$	4	2	8
	1624 SHELF LIGHT Attaches to bottom of shelf or component (32") between poles to provide illumination underneath. Black enamel finish.	1 $\frac{3}{8}$	31 $\frac{1}{6}$	2 $\frac{1}{4}$	8
	2168 SHELF LIGHT Attaches to bottom of shelf or component (48") between poles to provide illumination underneath. Black enamel finish.	1 $\frac{3}{8}$	47 $\frac{1}{6}$	2 $\frac{1}{4}$	10

SPECIAL PRODUCTS

The Herman Miller Special Products Division markets certain furniture designs which have applications so broad as to take them out of the conventional categories of institutional furnishings. This Division is a service group. It offers guidance in product usage, as well as engineering and related technical assistance to the specifier and/or customer in developing highly individual applications. The Special Products Division presently works in two product groups: Eames Contract Storage (ECS) and Eames Multiple Seating (EMS).

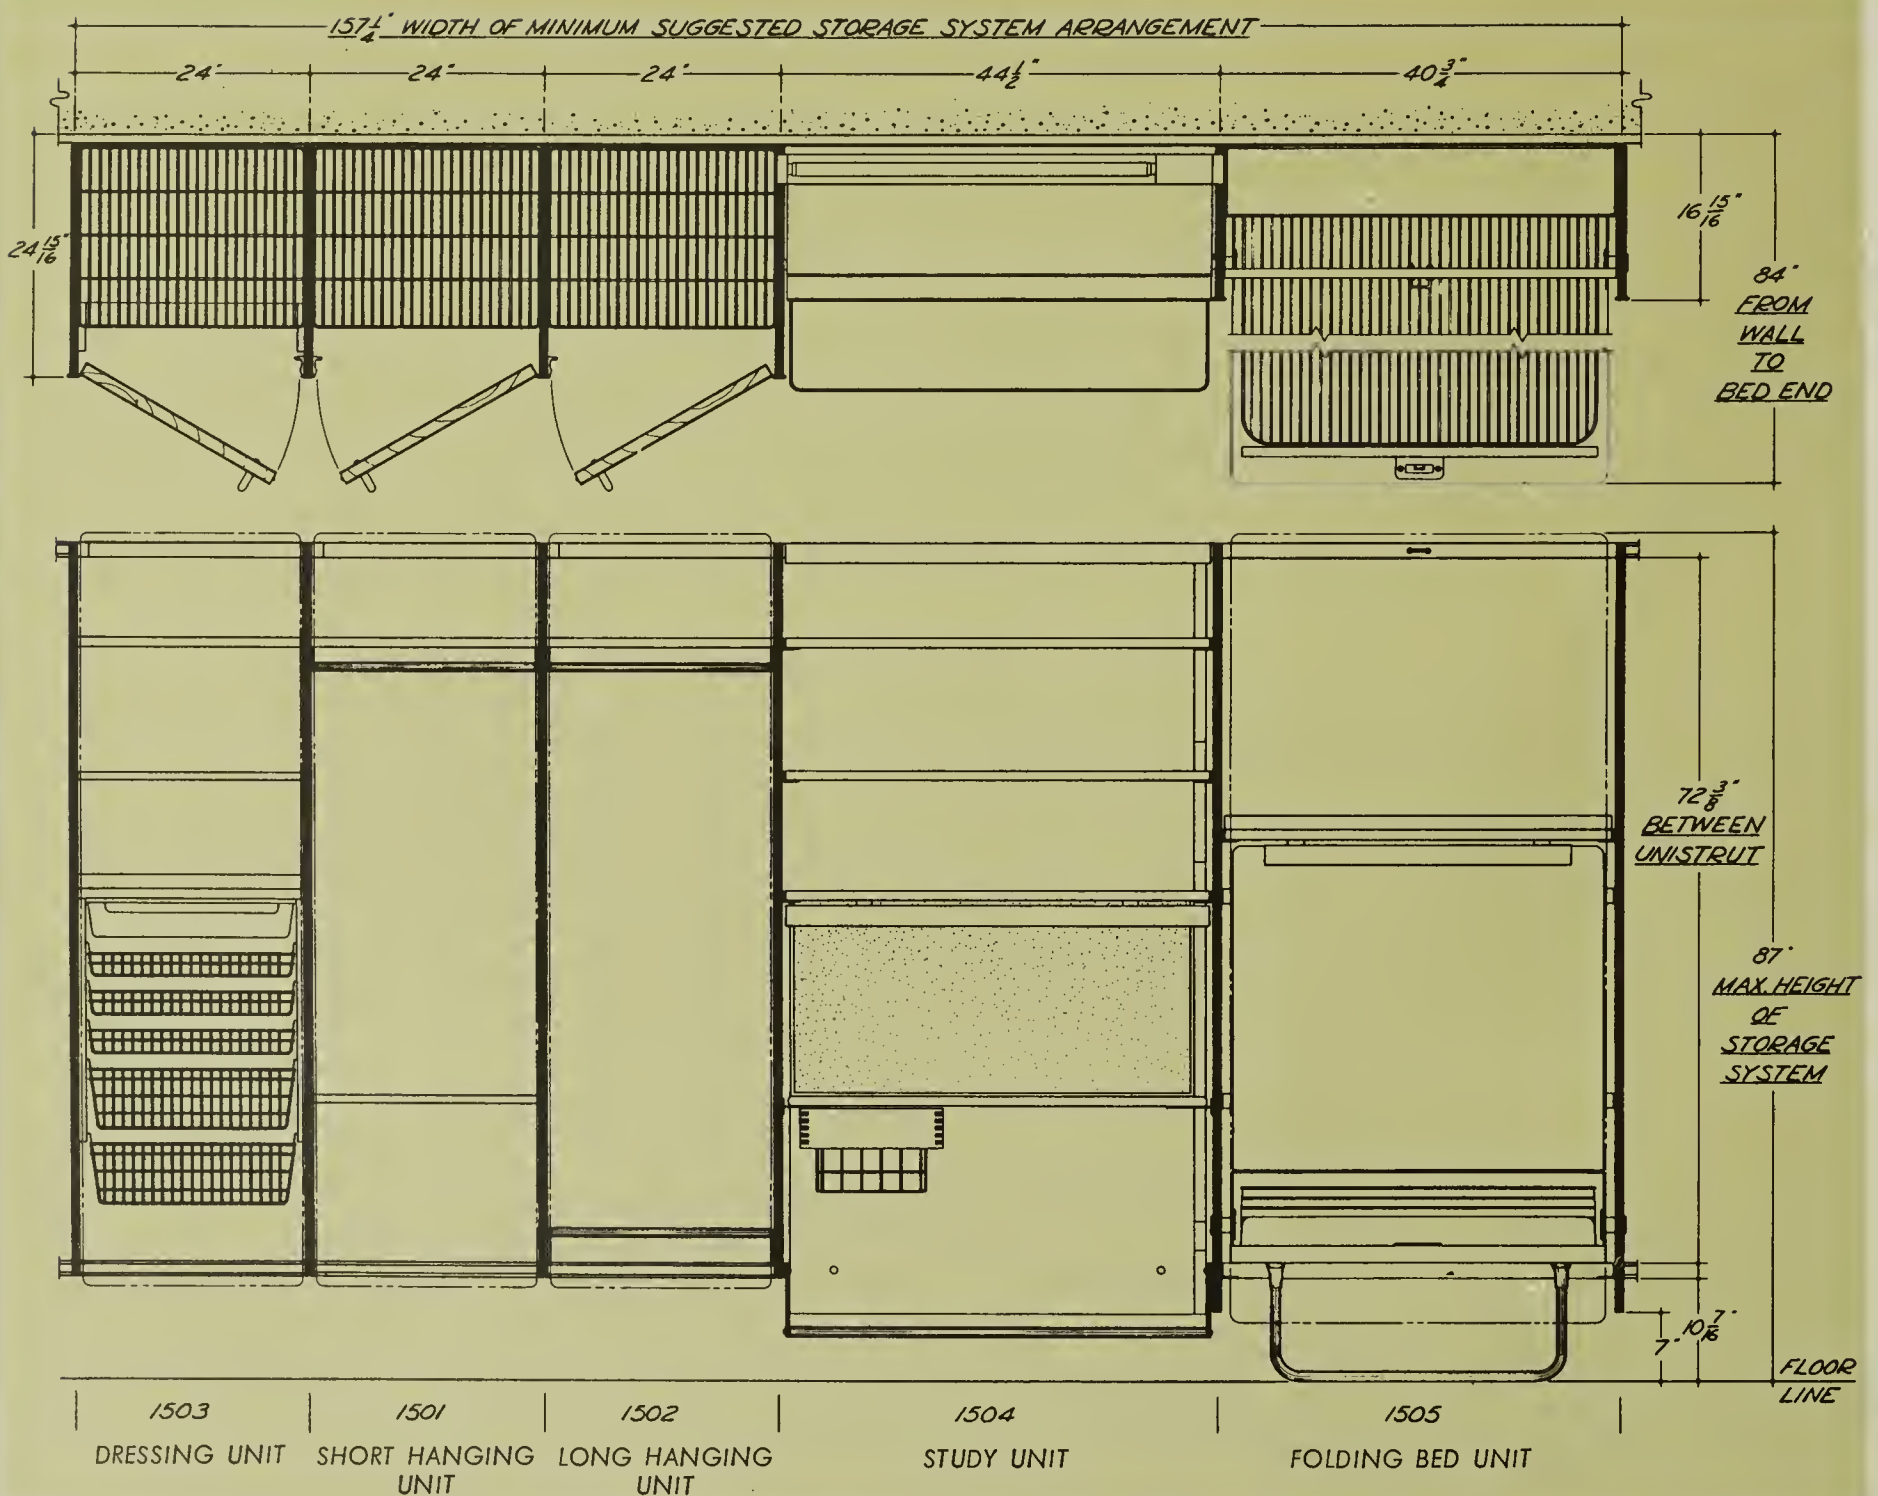

EAMES CONTRACT STORAGE

ECS is a system of storage, study, and sleeping units designed to serve the specific needs of institutional housing. The product has broad application in college, university, and medical residences and is adaptable to other areas of public and private housing.

The system is composed of six basic units: short and long hanging units, dressing unit, study unit, and both a folding and stationary bed unit.

ECS is hung from standard Unistrut sections secured to existing walls; it requires minimum space, has flexible arrangement, is free from the floor and ceiling, has effective sanitation through ventilation, allows for complete finishing of room prior to installation, is shipped knocked-down, and may be included in the general contract. The entire system qualifies for long-term government financing.

NOTE: Where special requirements are necessary, the unit can be designed and manufactured to meet the need while maintaining the continuity of the system. The Special Products Division offers a planning and engineering service plus field supervision of installation. For further information please contact the Special Products Division of Herman Miller, Inc., Zeeland, Michigan.

EAMES MULTIPLE SEATING

The comfort, ease of maintenance, and durability found in the plastic chair designed by Charles Eames are now available in seating for public spaces. A cast aluminum spider permits the side or arm shell to be mounted on straight or radiused bases for use in permanent applications.

Dozens of chair shells can be supported on a common base, thereby reducing the number of necessary legs by over 80%. The lack of clutter beneath the seating units is visually pleasing and saves cleanup time.

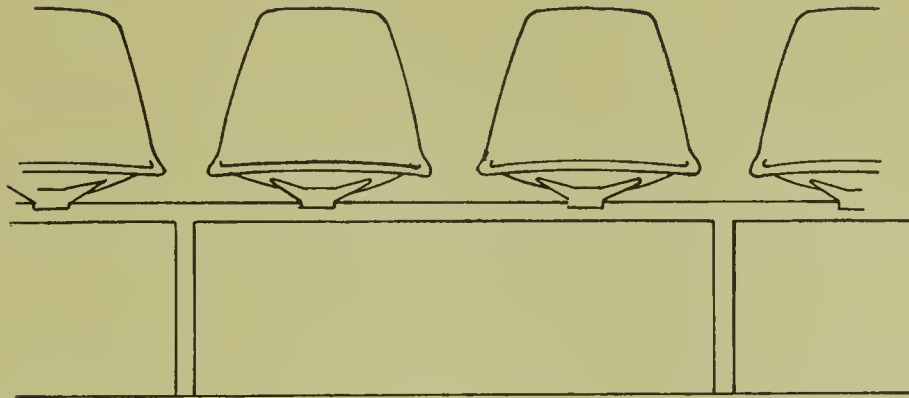

The comfort of these seating units comes from the contour support of the shell and the rubber shockmounts which cushion each shell on the aluminum adapter. Arm and side chair shells are available in 27 colors of plastic and a broad range of Herman Miller Naugahyde upholstered pads.

Specifiers will find EMS quite versatile. Chair shells can be mounted in level, incline, or riser installations on a series of specially designed bases and are available with fixed or folding tablet arms.

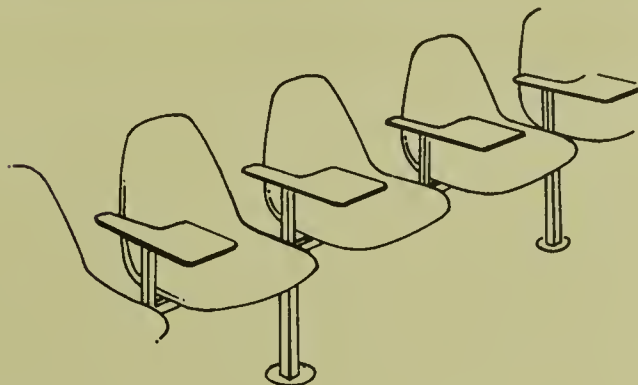

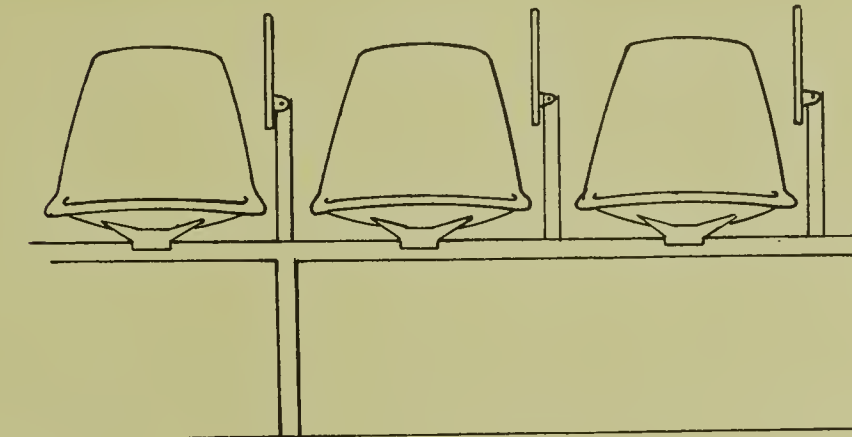

This product is recommended for use in transportation terminals, auditoriums, lecture halls, classrooms, churches, and other public buildings.

NOTE: Where special requirements are necessary, units can be designed and manufactured to meet the needs. The Special Products Division offers a planning and engineering service plus field supervision of installation. For further information, specifications, and prices, please contact Special Products Division, Herman Miller, Inc., Zeeland, Mich.

MODEL MSS ON MST BASE

MODEL MSS ON MST-F BASE

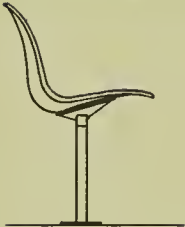

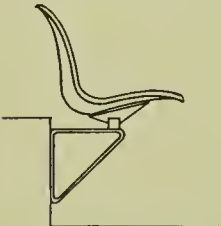

MULTIPLE SEATING SHELLS

The application of fiberglass reinforced plastic side and arm shells on cast aluminum spiders for attachment to a variety of fixed bases. The Special Products Division will supply the complete unit as described herein or the individual shells. Available with bases for flat, incline or riser mounting. The shells are molded of thermosetting resin reinforced with glass fibers and are available in colors and upholstery materials as outlined on page 2.

	ITEM NO.	DESCRIPTION	HEIGHT	WIDTH	DEPTH
	MSS	Side Shell with cast aluminum spider mounting drilled and tapped for 1/2-13 socket head bolt. To be used with bases as described.	18	18 1/2	21
	MSA	Arm Shell with cast aluminum spider.	18	24 7/8	24

MULTIPLE SEATING BASES

Continuous horizontal bases are available for the Multiple Seating Shells. The spider on the shells attaches to 1 1/2 x 2 x 11GA cold rolled steel tube with a 1/2-13 socket head bolt. A variety of leg structures are available to meet different situations. All bases are welded and painted black.

	MST	"T" support base for flat and incline floor mounting. Vertical post 1 1/2 x 1 1/2 x 11 GA CR steel tube with 1/4 x 5" dia. steel floor plate.
	MSU	"U" support base for flat and incline floor mounting. 3/8 x 2 bent steel strap with welded floor piece.
	MSR	"R" support for riser mounting. 3/8 x 2 1/2 bent steel strap.
	MST-T	"T" support base with fixed tablet arm support.
	MST-F	"T" support base with fold up tablet arm support.
	MSU-T	"U" support base with fixed tablet arm support.
	MSU-F	"U" support base with fold up tablet arm support.
	MSR-T	"R" support base with fixed tablet arm support.
	MSR-F	"R" support base with fold up tablet arm support.

FIXED PEDESTAL CHAIRS

MBP series are available with (CH) Polished Chrome or (BK) Black enamel 1 5/8" cast iron shaft with polished stainless steel floor ferrules. All units are shipped unassembled and suggested methods of installation are available on request. The MBP-C is available in three ranges of seating heights. 15" to 23", 24" to 30" and 31" to 33". Please specify exact seating height. Models MBP, MBP-L and MBP-U are standard at 18 1/2" seating height.

	MBP	Pedestal base with Plastic Side Shell 360 degree free pivot.	18 1/2	18 1/2	21
	MBP-C	Pedestal base with plastic shell 120 degree pivot, gravity feed self centering device, Recommended for counter stool applications.	15 to 33	18 1/2	21
	MBP-L	Ped. Base etc. with Limited Action pivot device. For applications where the degree of pivot should be controlled and self centering is required. Pivots left or right 60-90-120 degrees.	18 1/2	18 1/2	21
	MBP-J	Pedestal base with tilt swivel action. Recommended for Jury Box applications. Supplied with Arm Shell as standard.	18 1/2	24 7/8	24
		All MBP series are available with the standard plastic side and arm shells including upholstery. Also the 1700 series upholstered side and arm shells. See page 14.

**STANDARD
FINISHES**

(W) Walnut, (BI) Birch, (R-W) Rosewood-on-Walnut, (WB) Walnut-on-Birch are close-to-the-wood Dulux finishes. In these finishes, the pores of the wood are sealed but not filled. Some of the pores in the wood are visible permitting the full color and grain detail to be seen. The close-to-the-wood Dulux finishes offer a hard, durable surface with excellent abrasion and scratch resistance.

(OW) Walnut and (OT) Teak are gunstock oil finishes. Gunstock oil is our own development and is not to be confused with boiled linseed oil finishes. There is no sealing or filling of the wood pores and the natural color and beauty of the wood is preserved.

(EB) Ebonized, (GM) Gunmetal, (MR) Mustard, (TR) Tangerine, (TQ) Turquoise, (OL) Olive, (CR) Charcoal, (WH) White are lacquer finishes.

**SPECIAL
FINISHES**

Available, upon submission and approval of exact sample finish, at additional cost. Write: Specials Dept., Herman Miller, Inc. Zeeland, Michigan.

**CUSTOMERS
OWN
MATERIAL**

To insure prompt delivery when supplying own upholstery material please observe the following procedures:

1. Ship material prepaid to Herman Miller, Inc., Zeeland, Michigan or Herman Miller, Inc., 4131 Redwood Avenue, Los Angeles 66, California. Please see point of origin for each piece of furniture. On items of furniture that are shipped from either Los Angeles or Zeeland, the following states are shipped from Los Angeles: Hawaii, Nevada, Arizona, New Mexico, California, Utah, Wyoming, Montana, Idaho, Oregon, Washington, Alaska, and Texas.

2. Tag each piece of fabric with the number of the article on which it is to be applied and the amount of yardage to be applied on each article.

3. Include on this tag, dealer's name, address and furniture purchase order number and yardage of each material being sent.

4. If fabric is reversible, mark face side.

5. Striped fabric: specify direction of stripe (vertical or horizontal). Striped fabrics can only be supplied horizontally on pieces up to 50" in width, unless stripe of fabric is woven lengthwise.

6. Matching is left to the factory's discretion unless otherwise noted. 20% extra yardage must be included to allow for matching of fabric.

7. All yardages indicated in Illustrated Specification Book are based on 50" width.

Please consult the Herman Miller Fabric Collection for a wide variety of textures and colors in upholstery fabrics, Naugahydes and leathers.

**SPECIALS
DEPARTMENT**

Herman Miller Specials Department is equipped to handle most metal and woodworking requirements. Custom and special designs will be priced on request by Herman Miller. Variations of Herman Miller's own designs are subject to Herman Miller design approval. Herman Miller, Inc. will not make copies or variations of other manufacturers' standard items. Herman Miller reserves the right to approve all specials. Please contact: Specials Department, Herman Miller, Inc., Zeeland, Michigan, or your local Herman Miller representative for additional information on this service.

**SHIPPING
INFORMATION**

All shipping weights are based on maximum or crated weights. Uncrated weights are available upon request. Write Traffic Manager, Herman Miller, Inc., Zeeland, Michigan.
